

We offer insurance for your insurance

Living on the coast, we all feel the effects of increased insurance premiums. Leading insurance companies recommend that homeowners provide photographic records of their possessions to expedite the settlement of claims.

Is your property a full time residence? Do you own special collections, jewelry and artwork?

Yes, I want thorough coverage for peace of mind!

Do you own a vacation property near the ocean?

Can you recall all of the "toys" and décor you have placed in your home built for fun?

Yes, I want insurance for my insurance!

"When itemizing personal belongings on a sheet of paper, it is not uncommon to forget things, some of which may be expensive. The virtual home tour has solved that for us. Your product will pay for itself if needed.

Thank you for providing my family with additional peace of mind."

-Kevin Barry, Heritage Plantation

Take a Peek Virtual Tours utilizes photographic technology to provide you a "full service" inventory of your home and assets. We offer packages and customized services to cater to your needs.

Rates range from \$450 up to \$1200.
